

Michael Deyholos

Professor

Department of Biology, UBC Okanagan

Phone: 250-807-8541

Email: michael.deyholos@ubc.ca

<http://biol.ok.ubc.ca/faculty/deyholos.html>

Research Theme

Polymer and Natural Materials and Manufacturing (PNMM)

Research Areas

- development of natural fiber feedstocks
- genetics of hemp, flax fiber qualities
- cell wall development in fibers
- fungal interactions at the cell wall

Research Facilities/Tools

- DNA sequencing & analysis
- gene expression analysis (qRT-PCT, RNA-Seq)
- greenhouse & plant growth facilities
