

Sepideh Pakpour

Assistant Professor

Applied Science, UBC

Phone: 250-807-9103

Email: sepideh.pakpour@ubc.ca

<http://engineering.ok.ubc.ca/faculty/SepidehPakpour.html>

Research Theme

Biomedical and Biological Materials and Manufacturing (BBMM)

Research Areas

- Human Microbiome
- Aerobiology
- Microbial Ecology
- Infectious Diseases
- Biology of Built Environment
- Bioinformatics
- Advanced Statistical Methods for Analysis of Big Data and Decision Making in Health Sciences

Research Facilities/Tools

- High Performance Computing Tools for Microbiome Data
- 'Omic' Technologies
- Anaerobic Culturing

'Omic' Technologies

Discovery and Integration of Biomarkers Engineering Microbiome

Personalized Medicine
