

Jeremy E. Wulff

Professor

Department of Chemistry, University of Victoria

Phone: 1-250-721-7179 Email: wulff@uvic.ca

<http://web.uvic.ca/~wulff/>

Research Theme

Polymer and Natural Materials and Manufacturing (PNMM)

Research Areas

- Organic Synthesis
- Synthetic Polymers
- Polymer Crosslinking
- Chemical Biology

Research Facilities/Tools

- Synthetic chemistry infrastructure
- Class II biolab (tissue culture)
- Class II biolab (protein expression)
- Surface plasmon resonance (Biacore)
- Multichannel platereaders w/ in-well fluorescence imaging capabilities
- Rheometry & dynamic mechanical analysis
