Research Theme

Human-Computer Interaction (HCI)

Research Areas

- Mobile and Wearable User Interfaces
- Interaction Techniques
- Information Visualization
- Augmented/Virtual/Mixed Reality
- Gesture Interaction
- Social Acceptability of Technologies
- Navigation Interfaces
- Input Devices

Research Facilities/Tools

- Smart Devices (e.g., Smartwatch, Smartphones, Smart Glasses)
- Motion Capture System
- Electronic Prototyping Kits

Smartphone User Interface (UI)

Around-Device Interaction

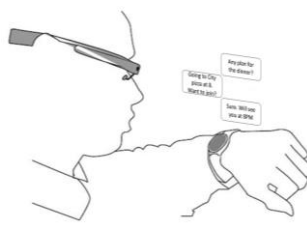

Smartwatch UI

Social Acceptance of Gestural Interaction

Acoustic-Based Interaction

Smart Glasses UI

Smartphone Peripheral Vision
